

TECH PROGRAMS

FOR THE FUTURE

WHAT IS FIRETECH?

1300 347 383 | info@firetech.wa.edu.au

Firetech is a leading **digital technology education provider** developing essential skills in the disciplines of **Science, Technology, Engineering, Arts and Maths (STEM+)**.

At Firetech we're on a mission to teach people of all ages how to design, create and innovate - with strongly embedded values underpinning the work they do, and the change they create.

Firetech provides a fantastic environment for challenging design thinking, problem solving, communication and collaboration skills – while having a whole lot of fun along the way!

SMALL CLASSES, MORE ATTENTION

An 8:1 student-tutor ratio ensures all kids gets the support they need to excel.

WE BRING THE TECH TO YOU

You decide the location, and we bring the tech, skills and passion to you.

QUALITY ASSURED DELIVERY

All our tutors are fully background checked, with current WWC and NPC checks.

PROPRIETARY STEM+ CURRICULUM

We continually develop our curriculum to reflect evolving Australian educational needs.

CREATING A BIG CHANGE, ONE STUDENT AT A TIME

1,200 + Training Courses
Provided since April 2016

2500 Students from over 100 Different Schools

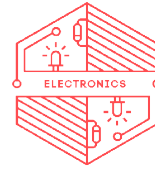

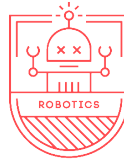

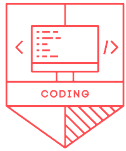

99.6% Customer Satisfaction

Since Firetech's launch in Australia in 2016, we have grown into the leading STEM+ education provider, delivering courses to more than 2500 students from over 100 different schools.

"(Firetech) has the ability to embrace the rapidly changing technology landscape by delivering content that is engaging, relevant and well suited to the student cohorts... " //

Embracing a wide range of STEM+ subjects covering robotics, game design, digital music and more. Request our full course brochure or a customised recommendation to suit your needs.

CORPORATE TRAINING

Develop foundational skills or up-skill existing employees with workshops on digital literacy, current industry trends (Artificial Intelligence, Block-chain, Internet of Things) and more.

SCHOOL PROGRAMS

From a 1- hour robotics incursion to an 8 - Week coding program, Firetech provides customised learning experiences to suit a variety of digital technology curriculum needs.

School Incursions

Inspire students' passion for STEM+ skills with curriculum aligned workshops from a variety of topics.

Professional Learning

Up-skill STEAM Knowledge and practice in coding, robotics, and DT curriculum implementation.

After School Clubs

Nourish a community that embraces STEM+ skills with a Firetech After-School STEM+ extension club.

HOLIDAY WORKSHOPS

Firetech hosts community workshops at 4 major locations during the school holidays. Discover 1-2 day STEM+ courses at ECU Joondalup, Claremont, Bull Creek and Perth CBD. (Kids and Teens age 6 - 18)

You can register for a course online or apply for an industry sponsored seat.

COMMUNITY OUTREACH + SPECIAL EVENTS

Firetech can be found throughout the year at Perth Science Festival, Perth Games Festival, Community STEM+ days and National Science Week flying drones, hosting workshops and sparking kids passion for the future.
